## Email management, made simple

**Netmail** is a 100% employee-owned global market leader of Integrated Email Management solutions and services. For over 14 years, our award-winning Netmail™ platform has helped hundreds of organizations worldwide eliminate complexity, ensure compliance, and enhance productivity.

### Our Solutions

Netmail, our Integrated Email Management Platform, simplifies the complex world of email management by removing the need to deploy, integrate, and manage multiple third-party systems. Netmail consolidates email security and encryption, policy-based email archiving and discovery, and unlimited email storage into a single web-based administration console that can be accessed anytime, anywhere. Hundreds of our clients already experience the benefits of lower complexity, improved uptime, increased productivity, and very competitive pricing by using Netmail to manage their email systems.

### Our Clients

Since our foundation in 2001, Netmail (formerly Messaging Architects Inc.) has helped more than 3,000 organizations and millions of individuals worldwide secure their email. Our clients range from Fortune 1000 companies to state and local governments, the financial sector, educational institutions, and healthcare organizations.

### Our Partnerships

We form lasting partnerships with one goal in mind: the success of our clients. Our Professional Services Team offers assessment, design, and implementation assistance to help our clients optimize their IT environments. Our Support Team ensures that our clients take full advantage of the features and benefits that our solutions offer – thus honoring our commitment to providing our clients with nothing less than remarkable support.

## Our Technology

Netmail simplifies the complex world of email management by removing the need to deploy, integrate, and manage multiple third-party systems. Netmail consolidates email security and encryption, policy-based email archiving and discovery, and unlimited email storage into a single integrated email management platform to guarantee security, confidentiality, and compliance across your entire messaging and collaboration system.

**Email Security**

**Email Archiving**

**Email Storage**

Our approach puts people before business, customer intimacy before process. You will work with a team of professionals who will be proactive, efficient, and supportive to your individual needs while taking ownership of the entire problem. What's more, with Netmail you're dealing with one vendor, one phone number, one hand to shake.

## Our Culture

Life at Netmail is built around a culture of trust. We are entirely employee owned and operated—and we know this makes a huge difference. For us, learning and innovation is a continuous process. We constantly seek out or develop new technologies and love to share our expertise with our clients. Our Leadership Manifesto reminds us of our commitment to one another, our partners, and our clients, and it is what keeps Netmail from being just another ordinary software company.

**Say what you mean - No bullshit.**

**Do what you say - Deliver.**

**Trust, period.**

**Don't pass the buck - Be the solution.**

**Play, as a team.**

**Be bold, be remarkable.**
